

LONDON AND PARIS

GLOBAL ENGINEERING LEADERSHIP

MAY 22–JUNE 22, 2018

APPLICATION DEADLINE: FEBRUARY 1, 2018

Rolling admissions; program may fill before deadline
Apply at udayton.edu/edabroad

SUMMER STUDY ABROAD PROGRAM

The field of engineering requires engineers with a knowledge of diverse cultures and different ways of exercising leadership. This project-based program will involve students working in teams as they focus on leadership and the roles that leaders in general, and engineers in particular, have played in addressing historical and contemporary challenges and opportunities in complex engineering systems. Students will be introduced to the historical and cultural factors that condition leadership in society and guide engineering decision-making and problem-solving in a global context throughout history and in the modern world. Students will have the opportunity to interact with local experts and contrast their views on engineering leadership with those from the United States.

→ COURSES

EGR 499 Global Perspectives on Engineering Leadership (3 credits)

EGR 499 Project Management in a Global Context (3 credits)

HST 499 History of Leadership: A Global Perspective (3 credits)

UDI 310 MAXIE: Experience (1 credit; required)

Students must enroll in a minimum of 7 credit hours.

→ SITE COORDINATOR

Professor Beth Hart
School of Engineering

→ ADDITIONAL FACULTY

Eddy Rojas
Dean, School of Engineering

Verb Washington
Assistant Dean, College of Arts and Sciences

→ PROGRAM COST: \$11,425*
